

# *DEPORTATION*

You have been DENIED entry to the United States and will return to your home country on the next available ship.

In the space below, write a postcard to your family explaining that you will be returning home and describing your experience at Ellis Island.

The form is a large rectangular box with a thick black border. It is divided into several sections: a large empty space on the left for writing a message; a vertical line separating this space from the right side; a square box in the top right corner for a stamp; and four horizontal lines on the right side for an address.
